

# Falcon Associates

Technical & Technology solutions

Estd.: 2013

## Energy, Asset & Maintenance management

## About us

Falcon was established in 2013 with a creative and strong team of subject matter experts in the Facility Management Industry. Realizing the need and importance of optimizing resources, eliminating gaps in physical data collection, getting Real Time data updates and Central monitoring and Analytics for Proactive and Predictive actions that will ultimately result in **“Time & Cost Savings”**, Falcon has restructured its service approach to provide End to End solutions for Property Maintenance with Technology and Building Automation. Our Technology solutions are Retrofit and Scalable, hence cost effective. Falcon core team consists of Electrical, Mechanical, Civil, Health & Safety Engineers and Hard core Technology partners, which makes our clients more confident and comfortable with our solutions and service deliverables. Falcon aims at being more creative than others and create a strong Indian brand in the Facility Management Services segment
